Perhaps this is something we can add to Sitrep and/or bullets? Develop a format and Mark has a map of his Zones. Ties into the RMP, FRP, DW and WW facilities. Let's discuss tomorrow

Subject: 6 Sept 2017 -- ASPECT update 2 -- 1200

ASPECT has completed zone 10 (Katy North) and is refueling at Sugarland. 80 targets (49 flight lines) were completed in Zone 10. Current plans are to resume the survey in Zone 8 (92 targets, 83 lines).

At the completion of survey activities today, ASPECT will transition to Addison for additional work on the IRLS sensor. It is anticipated that the sensor will be fully operational later tonight.
